MEMORY PILLOW PROJECT

In grief and loss, we seek a way to stay connected to the individual that has died. The Memory Pillows Program are ways to do this. We refer to them as Linking Objects. Memory Pillows are something a family can have made from a loved one's clothing, blanket or any special material and take it home so they can enjoy it every day. Volunteers have been making the Memory Pillows as part of the bereavement service and if you are interested in having a Memory Pillow symbolizing your loved one, please contact our Bereavement Coordinator at 870-508-1771.
